

Final Teams for ENAE 484

- This was an extremely painful process!!!
- People who have been moved, whether between projects or specialties (or both) are **highlighted**
- I will move people to their new Teams site
- You should start working with your new project groups now
- If you have a problem, let me know ASAP!!! I don't want this process to drag on into the next term. (Problems are also not "I don't like this", but are limited to "I can't graduate because of this..." or equivalent)
